SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS

SYNOPSIS:

Each month we follow the field closely on the status of security work by analyzing the backlog of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters cases in classifications 65, 100, 105 and 157. Status of these cases as of July 31, 1967, is set forth below.

In July, 1967, there was a decrease in pending active matters in the field in classifications 65, 100 and 105 from 21,779 to 21,315. Delinquent matters increased from 1,300 to 1,573. The percentage of delinquent matters increased from 6.0 per cent to 7.4 per cent.

During the same month, pending active matters in the 157 classification increased from 4,410 to 4,621 while delinquent matters increased from 246 to 312. The field-wide delinquency in this classification increased from 5.6 per cent to 6.8 per cent.

Letters are being sent to the offices indicated by asterisks on pages 4 and 5 herein, commenting on their delinquency and pointing out the necessity for bringing their cases in these classifications to a current status.

ACTION:

The field will continue to be followed closely regarding delinquency in the 65, 100, 105 and 157 classifications and you will be advised of the results of the review of the administrative report for August, 1967.

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS

SYNOPSIS:

Each month we follow the field closely on the status of security work by analyzing the backlog of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters cases in classifications 65, 100, 105 and 157. Status of these cases as of August 31, 1967, is set forth below.

In August, 1967, there was an increase in pending active matters in the field in classifications 65, 100 and 105 from 21,315 to 21,351. Delinquent matters decreased from 1,573 to 1,254. The percentage of delinquent matters decreased from 7.4 per cent to 5.7 per cent.

During the same month, pending active matters in the 157 classification increased from 4,621 to 5,099 while delinquent matters decreased from 312 to 280. The field-wide delinquency in this classification decreased from 6.8 per cent to 5.5 per cent.

Letters are being sent to the offices indicated by asterisks on pages 4 and 5 herein, commenting on their delinquency and pointing out the necessity for bringing their cases in these classifications to a current status.

ACTION:

EX 101

REC 54

SEP 18 1967

The field will continue to be followed closely regarding delinquency in the 65, 100, 105 and 157 classifications and you will be advised of the results of the review of the administrative report for September, 1967.

Memorandum

RE: DELINQUENCY IN SECURITY INVESTIGATIONS

DETAILS:

The August, 1967, administrative reports for all offices indicate that the total pending active matters in classifications 65, 100 and 105 increased from 21,315 to 21,851. Delinquent items decreased from 1,573 to 1,254. The percentage of delinquent items decreased from 7.4 per cent to 5.7 per cent. These same reports disclose that in the 157 classification total pending active matters increased from 4,621 to 5,099; delinquency decreased from 312 to 280; and the percentage of delinquency decreased from 6.8 per cent to 5.5 per cent.

The following statistics show the status of pending active matters in delinquency for all field divisions for the last six months.

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS

SYNOPSIS:

Each month we follow the field closely on the status of security work by analyzing the backlog of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters cases in classifications 65, 100, 105 and 157. Status of these cases as of September 30, 1967, is set forth below.

In September 1967, there was an increase in pending active matters in the field in classifications 65, 100 and 105 from 21,851 to 22,298. Delinquent matters increased from 1,254 to 1,393. The percentage of delinquent matters increased from 5.7 per cent to 6.2 per cent.

During the same month, pending active matters in the 157 classification decreased from 5,099 to 4,879 while delinquent matters increased from 280 to 336. The field-wide delinquency in this classification increased from 5.5 per cent to 6.9 per cent.

Letters are being sent to the offices indicated by asterisks on pages 4 and 5 herein, commenting on their delinquency and pointing out the necessity for bringing their cases in these classifications to a current status.

ACTION:

The field will continue to be followed closely regarding delinquency in the 65, 100, 105 and 157 classifications, and you will be advised of the results of the review of the administrative report for October, 1967.

Memorandum
RE: DELINQUENCY IN SECURITY INVESTIGATIONS

DETAILS:

The September 1967 administrative reports for all offices indicate that the total pending active matters in classifications 65, 100 and 105 increased from 21,851 to 22,298. Delinquent items increased from 1,254 to 1,393. The percentage of delinquent items increased from 5.7 per cent to 6.2 per cent. These same reports disclose that in the 157 classification total pending active matters decreased from 5,099 to 4,879; delinquency increased from 280 to 336; and the percentage of delinquency increased from 5.5 per cent to 6.9 per cent.

The following statistics show the status of pending active matters in delinquency for all field divisions for the last six months:

Memorandum ROUTE IN ENVELOPE

TO :

DATE: October 24, 1967 8

FROM :

SUBJECT: SECURITY INDEX

We forward to the field quarterly an alphabetical list of each office's Security Index in order that the Security Index cards maintained in the field may be checked and reconciled with Bureau records.

There is attached a proposed letter to all field offices containing appropriate instructions regarding the handling of the list.

RECOMMENDATION:

There is attached for approval the yellow file copy and letter to SAC, Albany, with copies to all offices. After approval, the attached should be returned to Supervisor J. Harold Glascock, Room 910 Federal Triangle Building, for preparation and distribution to the field.

PROPOSED CHANGES IN
MANUAL OF INSTRUCTIONS

Volume III, Section 87D, Page 57, should be amended as follows:

(7) Periodic verification of addresses

- (b) The whereabouts of all security index subjects should be known at all times. The residence and business addresses of all security index subjects must be checked at least once each six months, except those imprisoned and those who were included in the security index because of disaffection for the U. S. (defection to a Sino-Soviet-Bloc country, including Cuba since 10-1-60) (see section 1000, item 3, Volume IV, of this manual). The residence and employment of those who were included in the security index because of disaffection for the U. S. must be verified every thirty days. The case of any security index subject who is out of the country must be followed at least each six months to determine if he has returned to this country.

Perfect arrangements to be advised on a current basis of any indication that the subject is engaged in subversive activities, is exhibiting violent tendencies, or plans to change his residence or employment. Periodic checks to verify residence or business addresses may be made under appropriate pretext by telephone, or other expeditious means.

NOTE:

Revisions add phrase "including Cuba since 10/1/60" to encompass Cuba within the scope of the reference to defection to a Sino-Soviet-Bloc country as contained in Section 87D, Page 57, in order to coincide with current instructions in Section 1000, Item 3, Volume IV of Manual of Instructions

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONSSYNOPSIS:

Each month we follow the field closely on the status of security work by analyzing the backlog of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters cases in classifications 65, 100, 105 and 157. Status of these cases as of October 31, 1967, is set forth below.

In October, 1967, there was an increase in pending active matters in the field in classifications 65, 100, and 105 from 22,298 to 22,685. Delinquent matters decreased from 1,393 to 1,096. The percentage of delinquent matters decreased from 6.2 per cent to 4.8 per cent.

During the same month, pending active matters in the 157 classification increased from 4,879 to 4,911 while delinquent matters decreased from 336 to 237. The field-wide delinquency in this classification decreased from 6.9 per cent to 4.8 per cent.

Letters are being sent to the offices indicated by asterisks on page 4 herein, commenting on their delinquency and pointing out the necessity for bringing their cases in these classifications to a current status.

ACTION:

The field will continue to be followed closely regarding delinquency in the 65, 100, 105, and 157 classifications, and you will be advised of the results of the review of the administrative report for November, 1967.

3 Pentagon War Protesters Are Given Jail Sentences

By BRIAN KELLY
Star Staff Writer

Three young men accused of crossing guard lines at the Pentagon peace demonstration last month were found guilty of disorderly conduct yesterday. Judge Oren R. Lewis in a day-long, joint trial. Found guilty by the jury of nine men and three women were Jere Cassagnol, 22, a student at Howard University, and Donald Beatty, 22, a staff member of the Committee for Nonviolent Action, which has its headquarters on a farm in Voluntown, Conn. A third man, Jerry Shultz, 22, of Philadelphia, was sentenced to 20 days in jail, but gave him credit for 6 days the demonstrator already had spent in custody. He sentenced Beatty to 19 days, which matched the time he spent awaiting trial, so he was released.

In the third case, Lewis found Bruce Grant, 19, of Philadelphia guilty of the disorderly charge and sentenced him to 20 days, with 6 days off for time already spent in custody.

He deferred execution of the two unexpired sentences pending a hearing today on defense motions to dismiss the cases altogether.

In the trial yesterday, all three defendants and their attorneys contended that they did not cross the protective lines of military police and U.S. marshals guarding the Pentagon entrances the weekend of Oct. 21.

Meanwhile, another pair of demonstrators charged with the same disorderly conduct count were exonerated in rulings by Lewis yesterday after government prosecutors moved to have the charge dismissed.

The two men who were released were identified as Louis Shultz of Long Beach, N.Y., and Jerry Coffin, 22, of Philadelphia.

Shultz at first refused to accept the government's motion to dismiss his charge. Lewis agreed to try him, but quickly acquitted the young man when the prosecutor said they had no evidence to offer. The action took less than one minute.

The demonstrators were taken into Lewis' court, despite the petty nature of their charge, because they had refused to have their cases disposed by U.S. commissioners, who handled the bulk of cases stemming from the Vietnam war protest at the Pentagon.

Three Youths Get Jail Terms in Pentagon Protest

Three youthful pacifists, Philadelphia, and Jose Cassagnol, 22, of 1415 Tuckerman st. nw. and Donald Batty, 22, Voluntown, Conn. Lewis sentenced Batty to 19 days in jail but then freed him by crediting him for time already served. Batty, who said he had conscientious objections to cooperating with court procedures, had refused release on bond pending trial to questioning of Cassagnol by Judge Lewis. The spectator, Kenneth Trapp, a teacher at Hine Junior High School in Washington, refused to sit down at a marshal's direction and said the Judge's questioning "isn't even relevant." He was put in a cell for three hours and then apologized to the Judge for his "emotional response." Cassagnol and Batty were found guilty by a jury that deliberated 45 minutes. Grant cases together, was punctuated by an outburst from a courtroom spectator who objected to the day-long trial of the three, who presented their cases together, was tried by the judge alone.

SECURITY INVESTIGATIONS OF INDIVIDUALS - Continued
(INTERNAL SECURITY)

Recent developments have indicated that it may be desirable to re-evaluate the Bureau's security investigation procedures which have been directed toward coverage of the activities of the Communist Party (CP) and other such groups which seek the overthrow or destruction of the U. S. Government. Since 1950, numerous programs have been in effect such as the identification of members of such organizations, the security index, reserve index and investigations of communist infiltration of various groups and subversive front group organizations. These investigations have been guided by certain report writing procedures. The programs which have been in effect have provided excellent coverage on a continuing basis.

MAILED 8
The ever present and rapid expansion of racially militant or black power groups as well as individuals comprising the New Left have posed dangers closely paralleling the threat of communist activity in the U. S. There is no indication that the expansion of such groups will diminish, but rather that it will be even more widespread. The leaders and members of such organizations represent an increasing threat to the U. S. requiring increased penetration and investigation as well as the expansion of the informant program to develop necessary coverage.

Airtel to Boston
Re: Security Investigations of Individuals
(Internal Security)

These developments have made it increasingly important that all current security programs and procedures be carefully analyzed to insure that we are keeping pace with the growth of racially militant and New Left groups so that our manpower is continually utilized for maximum coverage in the most dangerous areas. Although we must not diminish our current investigative attention of communist and/or subversive organizations, we must give consideration to re-evaluating our existing programs and standards in order to streamline or even do away with certain programs and standards which may no longer be serving the purpose for which originally intended.

Each office should within two weeks of receipt of this communication advise the Bureau of its comments and recommendations concerning the re-evaluation of standards for including or deleting individuals in the Security Index, altering report writing procedures regarding Security Index subjects and re-evaluating the standards for inclusion of individuals in the reserve index. Specific comments should be included regarding recommendations for retaining or eliminating Reserve Index A and/or Reserve Index B.

As you are well aware, the altering of security index standards must be approved by the Department and this matter must receive close attention. It is, however, our responsibility to recommend timely changes and, therefore, your comments and recommendations are being solicited. All replies will be considered by the Bureau and no action should be taken at this time concerning your specific recommendations. All current programs and procedures will remain in effect until all offices are notified to the contrary.

NOTE: By memorandum to Mr. [redacted] dated 12/7/67, captioned "INSPECTION - NEW YORK OFFICE, (SECURITY AND RACIAL MATTERS)", it was recommended and approved that larger field divisions be surveyed for views as to the advisability and feasibility of altering current standards and practices in security investigations in view of recent developments and expansion of racially militant and New Left groups. Comments and recommendations of offices receiving copies of this airtel are being sought.

FROM: **W. M. FELT**

SUBJECT: **NEW YORK - NEW YORK OFFICE
(SULLIVAN AND RICHARDSON)**

Mr. Tolson, Mr. Sullivan of New York Office Intelligence Division asked inspection to make a special evaluation during recent inspection of New York Office system of records and reporting methods for handling of security subjects. Under the direction of this study relates primarily to insuring sufficient manpower is available to completely discharge Bureau responsibilities in regard to "new left," and other groups. Mr. Sullivan believes time has arrived for some constructive exchange of views and that views of New York Office as well as those of Domestic Security Division could be helpful in the matter. In line with this thinking matter was discussed during New York Office inspection.

Since the majority of Bureau's security investigations have been directed toward covering of Communist Party (CP) and other such groups who seek to overthrow Government. Numerous programs, such as identification of members, Security Index, Communist infiltration and front group investigations as well as training procedures have been established to control activities of the CP. The CP is the most organized and most dangerous group from security standpoint. These programs and procedures have been effective and broad coverage on Communist Party has been achieved.

CP continues to be most important threat to national security of the United States. However, we have recognized emergence and rapid expansion of "new left" and "new right" groups which pose dangers closely paralleling Communist activity in United States. Undoubtedly we will be confronted with responsibilities for identifying and being fully informed concerning these groups. We must identify leaders and members who represent potential threat to national security, all of which requires substantial increased penetration of these organizations with excellent informants. Recent developments make it vitally important that our present security programs and procedures be carefully analyzed and brought up to date to keep abreast of current social flux in the country and that we insure maximum coverage of the most dangerous groups.

New York Office and Domestic Security Division are in agreement that information to Bureau regarding Bureau's security effectiveness, thus making available

Re: Inspection - New York Office
(Security and Racial Matters)

additional manpower to be diverted to expansion of our coverage of racial and "new left" matters (administrative write-up prepared by New York Office is attached).

Briefly, we must not diminish our current relevant intensive investigative coverage of active Communists or Communist groups but at same time we must give consideration to (1) re-evaluating application of standards for individuals to be placed on or retained on Security Index (SI), (2) alteration of reporting procedures on SI subjects who are inactive and (3) sharply re-evaluating standards for individuals to be included in Reserve Index.

OBSERVATIONS:

Inspection Division agrees with the Domestic Intelligence Division ^{that} streamlining suggestions should be considered at this time. The New York Office concurs and suggests possible changes. We must make sure we are in a leadership position to cope with problems created by the "new left" and racial militants. Any altering of Security Index standards would, of course, have to be approved by Department. However, it is our responsibility to recommend any timely changes. Departmental approval would not be necessary for changes in reporting procedures or standards for inclusion on Reserve Index. It is felt Domestic Intelligence Division should secure views of other large field divisions and to thereafter propose any indicated changes for your consideration.

RECOMMENDATION:

That Domestic Intelligence Division be authorized to survey other large field divisions for views as to advisability and feasibility of altering in line with foregoing some current procedures in handling of security investigations.

Today, however, a new type of militant agitator has appeared. Evolving from unserved racial and social conditions, these militants are inciting riots and preaching and instigating anarchy and revolt. Their ranks include not only members of the racial hate groups but also members of groups supporting "New Left" concepts. These individuals are daily becoming more militant in their efforts to thwart this nation's effectiveness, particularly with relation to the current conflict in Vietnam. Many of these individuals are Chinese communist oriented.

In line with the above, you are instructed to carefully analyze all existing programs and procedures that have been established, with the view to suggesting for Bureau consideration altering, streamlining, or even eliminating any such programs or procedures. Particular emphasis should be directed toward the handling and maintenance of Security Index and Reserve Index cases, with a view toward determining whether your over-all total of approximately 5,000 cases can be reduced without material damage to the country's security or the Bureau's security effectiveness, thus making available additional manpower for utilization on all connections with the "Old" and "New Left" investigations. With regard to the Security Index, you are reminded that the standards for the Index have been approved by the Department of Justice, and any suggested

change or revision would have to be agreed upon by officials of the Department.

Upon completion of your analysis of these programs and procedures, you should furnish your comments together with your recommendations for future handling of this vital area of the Bureau's responsibilities.

Comments of SAC, Division IV, and ADIC MALONE requested.

SAC ROWELL: The New York Office has constantly reviewed the various programs in the security field to insure the manpower is adequate and properly assigned. With the climate in America today, particularly in the civil rights and racial fields, the New York Office has given aggressive, investigative attention to infiltrate those groups posing the greatest threat to our national security.

The Inspector's comments and observations are most pertinent, timely and certainly set forth the current situation with which the Bureau is faced in our internal security responsibilities.

The following are the New York Office analysis, observations, and recommendations. These are being set forth, recognizing this is an overall Bureau challenge, and not limited to any one office.

There has been noted an increasing number of groups which have threatened and in instances acted with militant resistance. These groups have been simplified in the popular press as "The New Left" and "Black Power." Both groups seem to involve themselves with hate of duly elected leadership and demonstrate in an anti-government action. Although both groups were originally somewhat integrated, the Negro radicals seem to have moved into separatist or national camp and are now popularly referred to as the "Black Power" extremists. The remaining group, referred to as the "New Left", is primarily a non-ghetto educated white group. The "New Left" is open to "Black Power" but not vice-versa.

With the conclusion of the October 20-22, 1967, demonstration at The Pentagon, we should alert ourselves to the probability of active resistance from "New Left" forces. From the results observed of destruction in the ghettos during the summer of 1967, we have been alerted to the menace of such "Black Power" groups as SNCC and NAAACP. They have, in fact, announced their intentions of violence.

Our effective and comprehensive coverage in the Communist field has shown that its influence in "Black Power" and "New Left" groups has not been great. Yet there are communist groups in the "New Left" and communists who are "Black Power" advocates. However, we should carefully evaluate our current programs of communist coverage to make certain we have a proper balance to achieve efficient coverage of these new radicals and yet maintain a comprehensive coverage of communist groups.

At the same time, we are also concerned with the counter-radical element on the right. These groups, although less vocal, are equally dangerous, i. e., witness the arms cache of the extreme right wing.

It is felt with streamlining and updating certain of our communist reporting, we will be in a position to redirect personnel to investigation of these new radicals and yet give proper and balanced investigative attention to both. In this regard, it is believed timely to re-examine our current Communist Party reporting procedures to eliminate miscellaneous reporting and concentrate all major activity. Saving time on preparation, without losing effectiveness, should be the goal.

Communist Investigations and Reporting

Our investigation of communist groups is directed to identify individual members, the organization itself, fronts, and groups it influences. In so doing, we report information under the Security Index and Reserve Index A (annually), and Reserve Index B (biennially) program, quarterly reports on the organization, and semi-annual reports on fronts and cominfil cases and key figures.

Security Index

In general under the Security Index program a member of a basic revolutionary organization is placed on the Security Index and an annual report is submitted for as long as membership is continued. For a period of five years after cessation of such membership, the individual is retained on the Security Index and an annual communication is submitted to the Bureau bringing the individual's activities up to date or reporting negative information.

Consideration should be given to the ending of the five year period for retention on the Security Index after cessation of membership. Consideration should be given to the elimination of annual reports on those Security Index subjects who have reached an advanced age, are inactive, or are physically incapacitated from a leadership position.

Reserve Index:

Basically, those individuals who do not or no longer qualify for the Security Index but have been members of a basic revolutionary organization since 1/1/48, are included on the Reserve Index. We open these cases on an annual or a biennial basis, verifying residence and employment, checking informants and indices review. If there is sufficient subversive data in the file, a communication is submitted to the Bureau.

Since these people have not been active members for a period of time, we should consider either up-dating the period for inclusion on the Reserve Index or consider possible elimination of this program. In either case, we should maintain cards of those individuals who have been on the Reserve Index or Security Index as an investigative aid.

Fronts

We now submit reports on a semi-annual basis concerning the activities of about a hundred communist fronts. Some of these fronts are paper organizations, others somewhat inactive, yet both require attention. Consideration should be given to have SOG or the field, as in the case of Key Figures and Top Functionaries, identify fronts as major or minor fronts. The major fronts would require our present procedures, but minor fronts would require letterhead memoranda on an annual basis.

Cominfil Cases

At present we have a number of cominfil cases on groups whose primary purpose is most legitimate and politically acceptable, i. e., Tenants' Councils. Cominfil cases should be reviewed with the thought in mind that our primary interest is the influence communists have in the organization rather than the infiltration of communists. Also, consideration might be given to emphasizing investigations of influential organizations (i. e. Labor Unions, racial organizations), with less attention to such groups as Tenants' Councils.

Incidental

One type of investigation which we conduct, which at the field level does not seem to be desirable, is the submission of letterhead memoranda on many individuals with subversive backgrounds, and on whom security investigations

have been conducted, who travel abroad. It would seem that our primary interest is in notifying United States agencies of those prominent subversives who will travel abroad (i.e. Key figures and Top functionaries). Of secondary interest are Security Index subjects. Those who qualify for Reserve Index or cannot make Reserve Index are believed of little interest to other agencies.

It would seem that we could well limit our travel letterhead memoranda to the Security Index subjects or consider sending letterhead memoranda only on Key figures or Top functionaries.

Conclusion

We should not diminish our current intensive investigative activities directed at communist members and groups. With certain up-dating and streamlining of our reporting procedures, we should be able to make personnel available for assignments on new radical groups. It is believed this can be done without any damage to the country's security or the Bureau's security effectiveness.

ALDO MALONE:
(BWE:NEW)
10/20/57

The New York office will continue to afford close attention to the investigation of the militant racial and "New Left" organizations. I concur in the above observations and recommendations and feel these should be considered based on the overall needs of the Bureau and their adaptability on a Bureau-wide basis.

SUBJECT: DELINQUENCY IN SECURITY AND
RACIAL MATTERS INVESTIGATIONS

An analysis of the status in the field of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters (RM) cases in classifications 65, 100, 105, and 157 was conducted for the month of December, 1967.

There was a decrease in pending active matters in classifications 65, 100, and 105 from 23,289 to 22,786, a difference of 503. Delinquent matters increased from 1,407 to 1,584, a difference of 177. The percentage of delinquent matters increased from 6.0 per cent to 7.0 per cent.

Pending active matters in the 157 classification increased from 5,020 to 5,197, a difference of 177. Delinquent matters increased from 265 to 325, a difference of 60. The field-wide delinquency percentage increased from 5.3 per cent to 6.3 per cent.

Letters are being sent to the following offices commenting either on their over-all security delinquency or on their racial matters delinquency. This is indicated by an asterisk.

Office	65	100	105	Over-all Security	157 (RM)
Cleveland	0.0%	14.4%	8.5%	10.8%*	6.5%*

SUGGESTION		
<p>It is suggested that Forms 128 and 128a (used in changing Office of Origin in security-type cases) be revised to show "REGISTERED MAIL" in bold black print at the bottom of the forms. (See attached samples).</p> <p style="text-align: right;">EXP. PROC. 20 DEC 11 1967</p>		
<p>Current practice or rule (include manual citation as well as facts)</p> <p>These forms presently reflect the abbreviation "Reg." in initial caps only opposite the space for designation of copies at bottom of form. (MRR, Part II, Sec. 4, pg. 54, 4d) (MRR, Part II, Sec. 3, page 3a, e)</p>		
<p>Advantages of suggestion and annual savings (include basis for estimate)</p> <p>The above-listed forms are used exclusively in security-type cases and should in all instances be sent via Registered Mail. In view of the sensitive nature of the Bureau's investigations of individuals considered as security risks and of groups and organizations, the activities of which are considered to be against the best interest of the U. S., it is essential that Bureau correspondence pertaining to such matters be afforded maximum security in transmittal via U. S. Mails. It is felt by use of a bold, darker block type spelling out the words REGISTERED MAIL, the possibility of such correspondence being sent via Regular Mail rather than Registered Mail would be lessened. Also it has been noted in instances where an abbreviation for "REGISTERED MAIL" is set forth</p> <p style="text-align: right;">(SEE PAGE 2)</p>		
<p>Disadvantages of suggestion</p> <p>None.</p>		
<p>(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)</p> <p><input type="checkbox"/> Mr. <input type="checkbox"/> Mrs. <input checked="" type="checkbox"/> Miss _____</p> <p style="text-align: right;">Signature and Title of Suggester</p>		
<p>Recommendations and comments of Division Head</p> <p>Adoption of suggestion would tend to minimize possibility of overlooking "Registered Mail." Recommend suggestion be adopted at time current supplies of forms on hand are expended and new forms are printed.</p>		

ADVANTAGES (continued):

on correspondence, this most frequently appears as "RM" instead of "Reg."

Forms 122 and 122a (used in connection with Security Index and Reserve Index subjects) presently bear similar mailing instructions pre-printed on the forms, which is most satisfactory.

Dear Miss :

I have received your suggestion that Form FD-128 and FD-128a be revised to place a particular notation in bold print at the bottom of these items. It is a pleasure for me to advise you a modification of your proposal is being adopted and these words will appear in two locations on the forms.

The interest and initiative which prompted you to bring this matter to my attention are indeed appreciated.

Sincerely yours,

J. Edgar Hoover

Miss

Training Division recommends a modification of this proposal be approved. The single designation of "REGISTERED MAIL" on each form is not definite to indicate that original and copies should all be forwarded in this fashion. It is more desirable to place the designation "Registered Mail" by copies to Bureau and in a location to apply to copies being sent to another field office. On approval, this letter will serve as authority for the Forms Management Desk, Training Division, to take appropriate action.

CUBAN EMERGENCY PLANS
INTERNAL SECURITY - CUBA

The name of _____, FBI file number _____, was approved for inclusion in the Security Index by Departmental letter dated March 10, 1965. By letter dated April 13, 1965, you advised that the Immigration and Naturalization Service had been requested to preposition the necessary documents calling for the apprehension of _____, a Cuban alien, when so instructed by the Attorney General.

For your information, Special Agents of this Bureau have interviewed _____. In recent months he has been cooperating with us in our continuing investigation of Cuban intelligence matters. In view of his cooperation, it is felt that he no longer fits the criteria for retention in the Security Index. His name, therefore, is being removed from the Security Index.

NOTE FOR MIAMI:

Reurlet 12/29/67. Should future developments in investigation of Vallabriga so indicate, submit appropriate recommendation for again including his name in the Security Index.

SECURITY INVESTIGATIONS OF INDIVIDUALS

ReBuairtel to Albany, copies to all offices,
dated 12/5/67, and reurlet 1/19/68, both captioned
"Students for a Democratic Society, IS-SDS."

It is noted that in referenced letter you stipulate that investigation is being conducted on some Students for a Democratic Society (SDS) leaders. However, referenced letter does not indicate a clear understanding by your office with regards to security investigations required of these individuals.

Instructions in referenced airtel specify that where not previously done, investigations are to be promptly started concerning the activities of SDS officers and leading activists. A review of your letter of 1/19/68 reveals a considerable number of individuals in that category. Therefore, in line with current instructions, security investigations of those individuals should be opened unless already done. In each instance a thorough and complete security investigation must be conducted and results submitted in report form under individual case captions as pointed out in referenced Bureau airtel. Accompany each report with your recommendation as to inclusion of the individual's name in the Security Index.

Bring this to the attention of all supervisory and Agent personnel in your Division handling security investigations in order to insure that no misunderstanding exists with regard to their responsibilities in this matter.

NOTE: Referenced Springfield letter names numerous individuals who are officers of the SDS and other activists on college campuses within the Springfield Division. ReSilet indicated some cases had been opened but was not clear as to cases opened nor extent of investigation being conducted.

SECURITY INVESTIGATIONS OF INDIVIDUALS

ReNYlet dated 1/5/68, captioned "Students for a Democratic Society, IS-SDS."

Referenced letter set out names of some officers of the various Students for a Democratic Society (SDS) chapters within your Division, and indicates that identities of many SDS officers and activists are not known. There is no indication in referenced letter as to the status of security investigations of the individuals named in referenced letter and no statement was made as to your plans to identify the unknown SDS officials and to institute investigations of their activities. You are referred to specific instructions contained in Bureau airtel to Albany, 12/5/67, and in particular to the last paragraph on page three of that airtel wherein it is stipulated, where not previously done, investigations are to be promptly initiated concerning the activities of SDS officers and leading activists. Therefore, if not already done, the requested action must be taken immediately.

In each instance a thorough and complete security investigation must be conducted and results submitted in report form under individual case captions as pointed out in the above airtel of 12/5/67. Accompany each report with your evaluation as to inclusion of the individual's name in the Security Index.

Bring this to the attention of all supervisory and Agent personnel in your Division handling security investigations of individuals in order to insure that no misunderstanding exists with regard to their responsibilities in this matter.

RE: SECURITY INVESTIGATIONS OF INDIVIDUALS

NOTE:

Referenced New York letter set forth names of numerous individuals of the SDS and other activists on college campuses within the New York Division. In many instances names were unknown. New York is conducting investigation to determine identities of those who are unknown. New York letter does not clearly show just what is being done with regard to security investigations of the individuals involved.

SECURITY INVESTIGATIONS OF INDIVIDUALS

ReBuairtel to Albany, copies to all offices, dated 12/5/67, and your report dated 1/10/68, both captioned "Students For A Democratic Society, IS - SDS."

Report of reference failed to indicate whether your office was opening investigations on those leaders and leading activists in the various SDS chapters in your area.

Airtel of reference specifically instructs that, where not previously done, investigations of the leaders and leading activists are to be initiated promptly. A review of the report of reference reveals a considerable number of individuals in the above categories who are not included in the Security Index. In this connection, your report advised that the SDS chapter in the University of Oregon had a membership of 40; however, the majority of the members therein were not listed. Therefore, unless already done, security investigations should be immediately initiated concerning those individuals in the above categories. A thorough and complete investigation must be conducted in each instance, the results of which should be submitted in report form under the individual case caption along with your recommendation as to the inclusion of the individual's name in the Security Index. In considering these individuals for the Security Index, your attention is directed to page 45, Section 87D, Manual of Instructions, Items C and D.

In the future when submitting an organizational report in this matter, advise in the Administrative Section whether or not the required investigation has been completed regarding officers and leading activists in the various SDS chapters in your division. REC-74

Bring this to the attention of all supervisors and Agent personnel in your division handling security investigations to insure that no misunderstanding exists with regard to their responsibilities in this matter. FEB 6 1968

SUBJECT: SECURITY INDEX STATISTICS

A report of the statistics of the Security Index in the past has been made on a weekly basis and on a summary monthly basis.

These statistics show the specific number of cards added and/or canceled and the net change by total only.

A detailed table by field office is printed on a monthly basis by the Voucher-Statistical Section showing the total number of Security Index subjects by field office.

The statistics for the additions or cancellations of the Security Index are maintained in the Special Investigations Unit of the Internal Security Section and are available for ready reference.

The elimination of the preparation of these memoranda will conserve Agent and stenographic time and will streamline our procedures.

ACTION:

Unless advised to the contrary, the procedure of preparing memoranda showing weekly and a monthly summary Security Index count will be discontinued.

PURPOSE

To recommend streamlining procedures for handling Reserve Index - A and Reserve Index - B investigations.

SYNOPSIS

Bureau responsibility in this field originated with Presidential Directives, the first one in September, 1939. The purpose of these investigations is to identify potentially dangerous individuals who are affiliated with subversive movements. This is field wide and is closely related to the Emergency Detention Program which involves plans for the apprehension and detention of potentially dangerous individuals in the event of an emergency.

The emergence of the new left and expansion of the racial militant now poses dangers which parallel the threat of communism to the internal security of the United States and we are seeking to streamline our operations to effect the greatest possible use of existing manpower to provide the increased coverage we need of the new left movement and militant racial activity. During the recent New York inspection observations were obtained and we have also secured comments of offices having a significant number of these cases for suggested procedural changes. As a result of the Inspection Division's observations and field office observations, we can streamline our procedures and the following recommendations are being made to do so:

1. The criteria for placing individuals in the Security Index (SI) and the procedures in handling the investigations of these individuals remain the same.

RE: Security Investigation of Individuals

2. The criteria for placing individuals on the Reserve Index - A (RI-A) remain the same. Current procedures for annual reopening and limited investigation in these cases be suspended at this time. The field office file for an RI-A subject should be reviewed by the field whenever informant information or other information is channeled to the file to determine if additional investigation is warranted.
3. The criteria for placing subjects on the Reserve Index - B (RI-B) remain the same. The current procedures for reopening of these cases be suspended at this time. The field office file of an RI-B subject be reviewed by the field whenever informant information or other information is channeled to the file to determine if additional investigation is warranted.
4. Maintenance of the RI-A and RI-B by the field office and the Bureau will remain the same.

OBSERVATIONS

To bring RI-A and RI-B cases up to date by investigation is desirable; however, it is felt that examination of the case file by the field when new information is placed in the file will serve as a backstop to catch those cases which have an accumulation of minor activity indicating that active investigation is required. Coverage of subversive activity through informants or other sources will reveal any activity which will require active investigation. We are streamlining our procedures without sacrificing essential controls. These changes will free manpower to handle investigations of emerging new subversives in the "new left" movement.

RECOMMENDATIONS:

1. That attached SAC Letter incorporating above be approved.
2. That attached manual revisions be approved.

These investigations. We also secured changes of offices having a significant number of these cases. In line with the field comments and our own experience, we have evaluated the standards for including or deleting individuals on the SI and Reserve Index.

The SI represents those individuals who have been determined through investigation to be dangerous or potentially dangerous because of their membership in or affiliation with or espousal of doctrines of basic revolutionary organizations and/or front organizations who will be apprehended upon receipt of instructions from the Attorney General.

Investigation has developed information that an individual, though not a member or a participant in the activities of a subversive organization, has anarchist or revolutionary beliefs and is likely to seize upon the opportunity presented by a national

DETAILS

Presidential Directives, the initial one being issued in September, 1939, and since repeated on several occasions, charged the Bureau with the responsibility of investigation of individuals in the internal security field. We are the collecting agency of the entire executive branch for subversive information and have the responsibility of seeing that such information is distributed to those Government agencies having a legitimate interest in these individuals. The purpose of these investigations is to identify those individuals who because of affiliation with subversive organizations may present a potential threat to the internal security of the United States in the event of an emergency and the development of evidence of violation of Federal statutes on part of these individuals. If it is determined that an individual does pose a potential threat to the internal security of the United States, he is scheduled for apprehension under the Emergency Detention Program by the inclusion of his name in the SI. Close attention is given these investigations to insure that we are fully discharging our responsibility.

The emergence of the new left and the expansion of the racial militant now poses dangers which parallel the threat of communism to the internal security of the United States.

This expansion of work has put a serious strain on our manpower. During the recent New York inspection, observations were obtained recommending procedural changes to streamline these investigations. We also secured comments of offices having a significant number of these cases. In line with the field comments and our own experience, we have evaluated the standards for including or deleting individuals on the SI and Reserve Index.

The SI represents those individuals who have been determined through investigation to be dangerous or potentially dangerous because of their membership in or affiliation with or espousal of doctrines of basic revolutionary organizations and/or front organizations who will be apprehended upon receipt of instructions from the Attorney General.

Memorandum ~~G.D. Brennan~~ to ~~W.C. Sullivan~~
RE: Security Investigation of Individuals

The criteria for placing and retaining names in the SI is governed by the following:

No name shall be added to or retained in the Security Index unless one or more of the following situations have been established through investigation:

- (A) Subject has had membership or participation in the activities of a basic revolutionary organization within the last 5 years as shown by overt acts or statements established through reliable sources, informants, or individuals.
- (B) Subject has had membership or participation in the affairs of one or more front organizations, which adhere to the policies and doctrines of a revolutionary group, in a leadership capacity or by active substantial participation in the furtherance of the aims or purposes of the front organizations within the last 3 years as shown by overt acts or statements established through reliable sources, informants, or individuals.
- (C) Investigation has developed information that an individual, though not a member or a participant in the activities of a subversive organization, has anarchist or revolutionary beliefs and is likely to seize upon the opportunity presented by a national emergency to endanger the public safety as shown by overt acts or statements within the last 3 years established through reliable sources, informants, or individuals.
- (D) Although investigation has failed to establish overt acts or statements on the part of a subject within the time limits set out above, facts have been developed which clearly and unmistakably depict the subject as a dangerous individual who could be expected to commit acts inimical to the national defense and public safety of the U. S. in time of emergency.

As of 1/26/68, the Security Index contains 10,109 individuals.

Memorandum C.D.Brennan to W.C.Sullivan
RE: Security Investigation of Individuals

When the field has completed an investigation and the subject's activities meet the criteria for inclusion in the SI, a report and FD-122 are submitted to the Bureau with recommendations for inclusion in the SI. The substantive Supervisor, Unit Supervisor in Charge, Section Chief and Assistant Director of the Domestic Intelligence Division approve the field's recommendation. The employment and residence of SI subjects are verified every six months and an investigative report is submitted annually.

The Reserve Index was established in 1960 to include those individuals whose subversive activities do not bring them within the SI criteria but who in a time of national emergency are in a position to influence others against the national interest or are likely to furnish financial or material aid to subversive elements due to their subversive affiliation and ideology. These individuals are scheduled to receive priority consideration with respect to investigation following the apprehension of SI subjects. The criteria for placing individuals in the Reserve Index is as follows.

Individuals are to be included in the Reserve Index when, following investigation, the information does not justify the inclusion of the subject's name in the Security Index when there is evidence of:

- (a) Membership in a basic revolutionary organization subsequent to January 1, 1949, together with some indication of sympathy or association with such an organization or a subversive front organization subsequent to the reported membership and no reliable evidence of defection.
- (b) Investigation has failed to substantiate allegations of membership in a revolutionary organization within the past five years, coupled with some evidence or information indicating activity, association, or sympathy for the subversive cause within the same period, and no reliable evidence of defection.

Memorandum C.D.Brennan to W.C.Sullivan
RE: Security Investigation of Individuals

- (c) The individual, within the past five years, by his associations, writings, financial support, or conduct in relation to and support of subversive organizations or the international communist movement is in a position to influence others at the time of a national emergency and no reliable evidence of defection.
- (d) Leadership or substantial activities in a major subversive front group over three years ago, together with some evidence of continuing activity, association, or sympathy for the subversive cause within three years and no reliable evidence of defection.
- (e) Membership in a subversive front organization within the past three years and no reliable evidence of defection.

The Reserve Index is divided into two sections, Section A and Section B. If a subject does not meet the criteria for the SI or is deleted from the SI, he is considered for either section of the Reserve Index. Those individuals who are included in Section A fall within the following categories: professors, teachers and educators, labor union organizers, writers, lawyers, doctors and other potentially influential persons on a local or national level or individuals who could furnish material or financial aid. Current procedures call for investigation of those individuals in the RI-A to be reopened and brought up to date annually and considered for SI status or retention in the RI-A. This investigation is limited to verification of residence and employment, check of informants and file review to determine if additional investigation and/or submission of a report is warranted. Section B contains the names of all other individuals in the Reserve Index and is maintained only by the field office. These cases are reopened every two years. The investigation is limited to verification of residence, employment and contact with logical informants. If the results of the case are negative, the case is then closed.

Memorandum C.D.Brennan to W.G.Sullivan
RE: Security Investigation of Individuals

As of 1/26/68, there were 1,959 individuals in the Reserve Index - A.

In order to streamline our procedures, the following recommendations are being made.

1. The criteria for placing individuals in the Security Index and the procedures in handling the investigations of these individuals remain the same.
2. The criteria for placing individuals on the Reserve Index - A remain the same. Current procedures for annual reopening and limited investigation in these cases be suspended at this time. The field office file for an RI-A subject should be reviewed by the field whenever informant information or other information is channeled to the file to determine if additional investigation is warranted.
3. The criteria for placing subjects on the Reserve Index - B remain the same. The current procedures for reopening of these cases be suspended at this time. The field office file of an RI-B subject be reviewed by the field whenever informant information or other information is channeled to the file to determine if additional investigation is warranted.
4. Maintenance of the RI-A and RI-B by the field office and the Bureau will remain the same.

OF INSTRUCTIONS**

Section 87D, 7, a, (3), (b), I and II, page 42c, currently reads:

(b) Section B

- I. This section is to contain the names of all other individuals included in the reserve index. This section is to be maintained only in the field office. Cases falling within this category should be thoroughly reviewed and analyzed from an investigative viewpoint at least once every two years on a continuing basis. As a minimum this review should include verification of residence and employment and contact with logical subjects for interview as means of developing potential sources, informants, and witnesses. Also be alert for recommending individuals for inclusion in section A of the reserve index or the security index if warranted. Form FD-154a may be used for this review.
- II. Changes in office of origin are to be handled by submission of form FD-128a. Forward section B cards to new office of origin.

PROPOSED CHANGES IN MANUAL
OF INSTRUCTIONS

Section 87D, 7, a, (3), III, page 42b, currently reads:

III. Periodic review of section A of the reserve index. Investigations of individuals listed in section A of the reserve index are to be brought up to date annually and considered for security index status or retention in the reserve index. Form FD-154a may be used for the annual review. This investigation should include, as a minimum:

- (A) Verification of residence and employment
- (B) Indices search and file review to determine whether additional investigation is warranted or whether an interview with the individual is desirable
- (C) If additional investigation is conducted or if there is unreported information of a substantive nature contained in the files, submit a report.

Section 87D, 7, a, (3), III, page 42b, should be amended to read as follows:

III. The field office file of a reserve index A subject should be reviewed whenever informant information or other information is changed to the file. SUBJECT: DELINQUENCY IN SECURITY AND
RACIAL MATTERS INVESTIGATIONS

An analysis of the status in the field of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters (RM) cases in classifications 65, 100, 105, and 157 was conducted for the month of January, 1968.

There was an increase in pending active matters in classifications 65, 100, and 105 from 22,786 to 23,048, a difference of 262. Delinquent matters decreased from 1,584 to 1,274, a difference of 310. The percentage of delinquent matters decreased from 7.0 per cent to 5.5 per cent.

Pending active matters in the 157 classification increased from 5,197 to 5,450, a difference of 253. Delinquent matters increased from 325 to 349, a difference of 24. The field-wide delinquency percentage increased from 6.3 per cent to 6.4 per cent.

Letters are being sent to the following offices commenting either on their over-all security delinquency or on their racial matters delinquency. This is indicated by an asterisk.

Office	65	100	105	Over-all Security	157 (RM)

(E) SECURITY INVESTIGATION OF INDIVIDUALS -- The emergence of the new left and expansion of the racial militant now pose dangers which parallel the threat of communism to the internal security of the United States.

In order to provide increased coverage of the new left movement and militant racial activity, the handling of investigations of individuals in the Reserve Index - A and Reserve Index - B is being changed as follows:

1. The criteria for placing individuals in the Security Index and the procedures in handling the investigations of these individuals remain the same.
2. The criteria for placing individuals on the Reserve Index - A remain the same. Current procedures for annual reopening and limited investigation in these cases be suspended at this time. The field office file for an RI-A subject should be reviewed by the field whenever informant information or other information is channeled to the file to determine if additional investigation is warranted.

SUGGESTION		Division of Assignment Domestic Intelligence	
That forms FD-122 and FD-122a be revised (sample attached).			
<p>0 SECURITY INDEX - GENERAL</p>			
Current practice or rule (include manual citation as well as facts) FD-122 and FD-122a revised 1/20/67, currently being utilized.			
<p>Advantages of suggestion and annual savings (include basis for estimate) Domestic Intelligence Division has reorganized security matter investigations. Additional tabulations for Security Index are now being used. This revision will eliminate the necessity for extensive manual notations made at the Bureau in preparing the information for the Voucher-Statistical Section in order to place this information in Automatic Data Processing. It has been determined there are currently on hand 7,400 thin yellow, 3,300 white bond and 3,800 thin white of FD-122 and 1,500 thin blue and 2,600 thin yellow of FD-122a. The value is estimated to be approximately \$24.00. In view of savings in clerical time as result of revision, it is believed revision should be effective upon completion of preparation and printing of revised form.</p>			
Disadvantages of suggestion None			
<p>(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)</p>			

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION - 2-15-68

Suggestor recommends that forms FD-122 and FD-122a (forms for recommending Security Index inclusion or changes on the Security Index card) be revised to include various organizations so that these organizations can be checked as against making handwritten notations as is the current practice. Additionally the suggestor recommends that, item, Interested Agencies, listed under Key Facility Data be deleted inasmuch as this data is not included on the Security Index card, which is the purpose of the form.

Including the various organizations recommended by the suggestor in the above-mentioned forms will lead to uniformity in the execution of the forms and also a savings of time at the Seat of Government inasmuch as handwritten notations will be replaced by a check off system.

The Domestic Intelligence Division recommends that this suggestion be adopted and that the revision should be effective upon the completion and printing of this revised form if approved.

Attached hereto are the proposed revised forms.

SUBJECT: SECURITY INVESTIGATION OF INDIVIDUALS

As you know, the build up of investigations of the New Left and the racial militant is placing a serious strain on our manpower. Accordingly, we are exhaustively and continually examining our procedures and policies to eliminate everything except absolute essentials in our operations. In this connection, we have recently noticed several instances where field offices have not taken into consideration the health and well-being of subjects when submitting recommendations for inclusion and retention in the Security Index.

The field should be reminded that it must take a hard look at Security Index subjects at the time of semiannual verification of residence and employment or at the time of due date for an annual investigative report. Each subject is to be re-evaluated as to his subversive activity, physical well-being and potential dangerousness to determine if retention on the Security Index is justified. This does not mean we are attempting to reduce the total Security Index. We are eliminating those investigations that are not deemed essential to insure that our list of Security Index subjects is most current and meaningful.

RECOMMENDATION:

That attached airtel to all SACs be approved and transmitted.

GENERAL
(F) SECURITY INDEX CARD TABULATIONS -- For administrative purposes in handling the Security Index, the tabulation of the Security Index by designating organizational affiliation is being revised. In addition to the present abbreviations currently being used, the following should also be utilized:

Students for a Democratic Society	SDS
Spartacist League	SPL
Provisional Organizing Committee for a Marxist-Leninist Communist Party	POC
Workers World Party	WWP
Revolutionary Action Movement	RAM
Student Nonviolent Coordinating Committee	SNC

In those cases involving investigation of the New Left in which there is no designated organizational affiliation, the tabulation should be designated Anarchist (ANA).

In those cases involving investigation of Racial Matters in which there is no designated organizational affiliation, the tabulation should be designated Black Nationalist (BNT).

A supply of revised FD-122 and FD-122a forms will be forwarded to you in the near future.

Appropriate manual changes are being prepared.

Very truly yours,

John Edgar Hoover

SUBJECT: SECURITY INDEX CARD TABULATIONS

For administrative purposes in handling the Security Index, the tabulation of the Security Index by designating organizational affiliation is being revised.

The revised tabulations of the Security Index will be utilized for administrative purposes primarily in connection with the statistics published each month by the Voucher-Statistical Section. This revision is based primarily on the increase in the number of New Left and racially militant subjects being placed on the Security Index. The office submitting new recommendations for inclusion in the Security Index will use the new organizational affiliations which will in turn be placed on the Security Index cards. When the monthly statistical sheet is run off, it will be much more readily understandable and the breakdown of organizational affiliations will also be more readily available.

There are eight new abbreviations being adopted for organizational affiliation. These are: Students for a Democratic Society (SDS), Spartacist League (SPL), Provisional Organizing Committee for a Marxist-Leninist Communist Party (POC), Workers World Party (WWP), Revolutionary Action Movement (RAM), and Student Nonviolent Coordinating Committee (SNC). In addition, the abbreviation ANA (Anarchist) will be utilized where there is no designated organizational affiliation in investigations involving the New Left. In cases involving racial matters with no designated organizational affiliation, the abbreviation BNT (Black Nationalist) will be utilized.

2- ENCLOSURE
Appropriate letter to all Special Agents in Charge has been prepared as well as proposed changes in the Manual of Instructions concerning these new abbreviations.

RECOMMENDATIONS:

PERSONAL ATTENTIONSECURITY INVESTIGATIONS OF INDIVIDUALS

Reference is made to the report of SA dated 1/23/68, at San Diego, the case entitled "Students of the Independent Left (SIL), University of California at San Diego; Internal Security - C."

Report of reference set forth information regarding the activities of SIL which for the most part were anti-American, pro-Chinese communist, and anarchistic in character.

If not already done, individual case files should be opened on all individuals listed in the report of reference and reports submitted in each case setting forth the individual's activities and/or statements along with your recommendation in each instance with regard to the Security Index (SI) status of the individual involved. With regard to the SI status of each individual involved, you are referred to Manual of Instructions, Section 87D, page 45, Items C and D, which concerns revolutionary and/or anarchistic statements and activities.

NOTE: SIL is an extreme leftist organization at the University of California, SD. Its members sponsored a dance 10/21/67 where the walls were decorated with pictures of Mao, Ho Chi-Minh, and other communist leaders. They have been quite active in demonstrations against selective service and recruiting of students on campus. On 11/8/67 this organization celebrated the Russian Revolution where procommunist literature was made available and the North Vietnam flag was flown.

Disadvantages of suggestion None.

Dear Mr. :

I have received your suggestion that clerical employees be trained to write annual reports on a selective basis in certain instances. You may be interested to know that similar proposals have been considered in the past and not adopted due to numerous disadvantages which would be involved in such a procedure. Report writing is one of the most exacting duties in the field and it was decided it should remain the responsibility of our agent personnel.

Although favorable action was not taken in this instance, the interest you displayed in submitting your idea to me is indeed appreciated.

Sincerely yours,

J. Edgar Hoover

NOTE: Suggests clerical employees be trained to write annual reports, on a selective basis regarding Security Index subjects, especially where a number of volumes are involved and all that is reported is attendance at meetings. This training could be handled by

a knowledgeable person in a mere minimum amount of time. The facts are all in the file to report. The case could be assigned to an agent who would verify addresses and places of employment. The clerk could review the file and record data from channelizing memoranda and then write the report.

Similar ideas have been considered previously and not adopted. Clerks do not have the necessary education, training, experience, and background knowledge of security matters to enable them to write reports. Suggestion appears to be based on premise that all information to be reported is already in file in form of channelizing memoranda. This is not entirely sound since in many cases information developed by agent's investigation is required to round out report. Information in some memoranda cannot be merely copied when placed in reports. It must be carefully paraphrased in order to protect identity of sources. In addition, separating subversive from nonsubversive information is difficult for experienced agents at times. Information must be analyzed, correlated, and a succinct factual picture presented and this responsibility should not be placed on clerks. Characterizations must be shown in reports and writer of report is responsible to see that these items are up to date. Report writing is a complicated procedure and Training Division recommends current idea not be adopted.

SUGGESTION <p>That a printed form (sample attached) be approved for use in advising a field office that a subject's name should be removed from the Security Index. The form letter will consist of one page.</p>		
<p>Current practice or rule (include manual citation as well as facts)</p> <p>The above letters to the field are handled by fully typed letter when information is received that a subject should be removed from the Security Index.</p>		
<p>Advantages of suggestion and annual savings (include basis for estimate)</p> <p>This is currently handled by fully typed letter in an estimated 50 cases per month. There will be a considerable saving of time in dictating, transcribing and proofreading.</p>		
<p>Disadvantages of suggestion</p> <p>Additions to each specific case will have to be made on copies for the field, yellows, and ticklers.</p>		
<p>(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)</p>		

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION

2/1/68

Suggestor recommends that a form be approved for use in advising a field office that a subject's name should be removed from the Security Index, pointing out that it will be necessary in each specific case to make additions. The current procedure is to dictate a letter to the field requesting subject's name to be removed from the Security Index. It is estimated that approximately 50 letters of this nature are sent to the field per month.

The use of a form in this instance appears desirable even though additions will have to be made to each form. The suggestion offers a savings of time in dictating, transcribing and proofreading,

The Domestic Intelligence Division recommends this suggestion be adopted and recommends that printed forms (samples attached) be approved.

RACIAL MATTERS INVESTIGATIONS

An analysis of the status in the field of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters (RM) cases in classifications 65, 100, 105, and 157 was conducted for the month of February, 1968.

Pending active matters in combined classifications 65, 100, and 105 increased by 151, as the total increased from 23,048 to 23,199. Delinquent matters decreased by 211, as the total decreased from 1,274 to 1,063. The percentage of delinquent matters decreased from 5.5 per cent to 4.6 per cent.

Pending active matters in the 157 classification increased by 557, as the total increased from 5,450 to 6,007. Delinquent matters decreased by 26, as the total decreased from 349 to 323. The field-wide delinquency percentage decreased from 6.4 per cent to 5.4 per cent.

Letters are being sent to the following offices commenting on their racial matters delinquency. No office reported over-all security delinquency in excess of 9.2%.

SUBJECT: SECURITY INDEX - GENERAL
SUGGESTION 601-68 SUBMITTED BY
SA -
DOMESTIC INTELLIGENCE DIVISION

SUGGESTION: That Form FD-122 (Recommendation for Preparation of, or Change in, Security Index Card) and FD-122a (Recommendation for Preparation of, or Change in, Reserve Index Card) be revised according to the samples attached.

ADVANTAGES: The suggester states the Domestic Intelligence Division has reorganized security matter investigations. Additional tabulations for Security Index are now being used. The proposed revisions will eliminate the necessity for extensive handwritten notations made at the SOG in preparing the information for the Voucher-Statistical Section in order to place this information in Automatic Data Processing equipment. SA has determined there are currently on hand 7,400 thin yellow, 3,300 white bond and 3,800 thin white of FD-122 and 1,500 thin blue and 2,600 thin yellow of FD-122a. The value is estimated to be approximately \$24. In view of savings in clerical time as a result of revisions, it was felt revisions should be effective upon completion of preparation and printing of revised forms.

OBSERVATIONS: Domestic Intelligence Division noted that including the various organizations recommended by the suggester in the above-mentioned forms will lead to uniformity in the execution of the forms and also provide a saving of time at the SOG inasmuch as handwritten notations will be replaced by a check-off system.

Voucher-Statistical Section, Administrative Division, advised the proposed revisions appear to have merit and as far as handling the forms in this section was concerned, there was no objection to the forms being modified as suggested.

Training Division does not oppose this action since these forms should be revised to implement the SAC Letter dated 2/14/68 which is presently being printed to facilitate handling the administrative procedures attendant with handling the Security Index and Racial Matters. Samples of current FD-122 and FD-122a attached.

Re: SECRETARY INDEX - GENERAL
SUBMITTED BY

DOMESTIC INTELLIGENCE DIVISION

RECOMMENDATION (1) That the suggestion be adopted and the attached letter of appreciation forwarded to the suggester. He has been commended by prior letter.

Trail
prepared

(2) On approval, this memorandum will serve as authority for the Forms Management Desk, to take appropriate action. When the new forms have been prepared, the old ones should be destroyed and the new ones utilized immediately.

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION 2-15-68

Suggestor recommends that forms FD-122 and FD-122a (forms for recommending Security Index inclusion or changes on the Security Index card) be revised to include various organizations so that these organizations can be checked as against making handwritten notations as is the current practice. Additionally the suggestor recommends that, item, Interested Agencies, listed under Key Facility Data be deleted inasmuch as this data is not included on the Security Index card, which is the purpose of the form.

Including the various organizations recommended by the suggestor in the above-mentioned forms will lead to uniformity in the execution of the forms and also a savings of time at the Seat of Government inasmuch as handwritten notations will be replaced by a check off system.

The Domestic Intelligence Division recommends that this suggestion be adopted and that the revision should be effective upon the completion and printing of this revised form if approved.

Attached hereto are the proposed revised forms.

SUGGESTION

That a printed form (sample attached) be approved for use in advising the Department that a Security Index subject is no longer employed by the Federal Government and that the subject is being removed from the Special Section of the Security Index tabbed "U. S. Government Employee" and is being returned to the Regular Section of Security Index. The form is to be printed on four types of paper: Optional Form 10 (original); thin whites (for copy to field file and ticklers); blocked yellow (); and plain yellow (for Bureau file). The form letter will consist of two pages.

Current practice or rule (include manual citation as well as facts)

The above letters to the Department are handled by fully typed letter when information is received that a subject is employed by the Federal Government.

Advantages of suggestion and annual savings (include basis for estimate)

This is currently handled by fully typed letter in an estimated 30 to 35 cases per month. There will be a considerable saving of time in dictating, transcribing, and proofreading.

NOT RECORDED

141 MAR 26 1968

Disadvantages of suggestion

Additions to each specific case will have to be made on copies for the field, yellows, and ticklers.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

UNITED STATES GOVERNMENT

Memorandum

DATE: April 1, 1968

TO :

FROM :

SUBJECT: SECURITY INDEX - CUBA
(SEMI-ANNUAL REVIEW AND ANALYSIS)

- C
1. Origin: This program was instituted November, 1960.

Purpose: To keep track of dangerous individuals having pro-Castro sympathies and who are engaged in activities considered inimical to the United States to insure they are neutralized in event of hostilities involving Cuba.

Scope: Program applies to two categories of pro-Castro Security Index subjects against whom appropriate action would be taken in case of emergency.

(A) Cuban Special Section (individuals on Security Index solely based on their pro-Castro activities or sympathies).

(B) Security Index tabbed C for "Pro-Cuban." (Individuals placed on Security Index for other reasons, such as members of Communist Party who, by reason of pro-Castro activities and/or sympathies, are considered dangerous in the event of hostilities with Cuba).

2. Tie-In with Other Programs: Program is coordinated with overall Security Index program. As of 3/15/68, 343 individuals were tabbed "Pro-Cuban;" 241 individuals were included in the "Cuban Special Section," 95 of which were aliens.

Magnitude: In the event of hostilities with Cuba, the Government could immediately proceed to pick up those individuals listed on the Security Index who are Cuban Aliens. We

3824

Memorandum to Mr.
RE: SECURITY INDEX - CUBA

keep Immigration and Naturalization Service (INS) informed concerning the aliens and the Attorney General is having documents prepositioned against them, which documents would facilitate their arrest by INS should the eventuality arise.

3. Administrative Control: A Bureau Supervisor has direct responsibility for following this matter and assuring field handles program properly. Accordingly, it receives a continuing review.

Adequacy and Currentness of Instructions: SAC Letters 60-54 dated 11/22/60, 62-55 dated 10/5/62, 63-61 dated 12/17/63, and 64-48 dated 9/29/64 furnished the overall instructions regarding program. Specific instructions concerning disaffection of U. S. citizens abroad were set forth in Bureau letter to all offices dated 9/17/64. With regard to Cuba, these instructions relate to individuals who have manifested disaffection from United States since 10/1/60. Instructions are current and complete.

4. Dissemination: Pertinent data regarding Security Index subjects is furnished Secret Service at field and Headquarters level. Dissemination is also made to Department, State, Central Intelligence Agency, and the military intelligence agencies, when it appears that these agencies have an interest. In those cases involving Cuban aliens, dissemination is also made to INS both at field and Headquarters level. Instructions regarding dissemination were furnished field in SAC letters 64-48 (C) dated 9/29/64, 65-10 (G) dated 3/9/65, and 67-18 (G) dated 3/28/67. Instructions with respect to dissemination to Secret Service were reiterated to the New York Office by letter dated 6/7/65, captioned "Nationality Group Coverage, Internal Security - Cuba."

5. Past or Present Weaknesses: Program was instituted in view of possible limited emergency growing out of situation existing between United States and Cuba in 1960. Program serves to more completely discharge our responsibilities in security field as they relate to Cuba and to insure that these responsibilities are continuously being met. No present weakness in the program.

6. Contemplated Action: Program should be continued as now constituted.

ACTION: For information. Program will be analyzed again October, 1968.

Memorandum

DATE: 3/28/68

TO :

FROM :

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

The purpose of this memorandum is to recommend that attached proposed SAC Letter be approved advising the field of its investigative responsibility of keeping abreast of the activities of individuals connected with the new left movement who engage in violence or unlawful acts.

With the emergence of the new left movement, a new subversive force has lifted its ugly head to present us another challenge in the security field. Many of the individuals in this movement are not members of any basic revolutionary organization, as such, but are in themselves violent anarchists. They would be a definite threat to internal security of this country in time of a national emergency.

Attached proposed SAC Letter reminds the field of its continuing responsibility to investigate individuals whose activities threaten the internal security of the U. S., and points out the increased dangers being brought about by the new left. The letter sets additional guidelines for use by the field in initiating investigations of new left individuals and evaluating their Security Index status.

RECOMMENDATION:

That the enclosed letter to all Special Agents in Charge be approved.

Memorandum

TO :

DATE: March 27, 1968

FROM :

SUBJECT: ⁰ SECURITY INVESTIGATIONS OF INDIVIDUALS —GENERAL

Violent demonstrations against U. S. policies in the war in Vietnam have recently erupted in London, Paris, Rome and Germany. Information has been received that U. S. citizens, American students and black power advocates, have been active participants in these demonstrations. Previous instructions have been furnished the field and the Legats relative to handling investigations of individuals in the New Left groups who, for the most part, have been active in these demonstrations.

Instructions are being set forth for the Legats to identify the U. S. citizens who are actively engaging in disruptive tactics in foreign countries and to furnish pertinent information to interested field offices. The interested field office will initiate a security matter investigation and determine the potential dangerousness to the U. S. of the subject. Recommendations are to be submitted as to whether or not the activities of the subject warrant inclusion in the Security Index and/or Agitator Index. Accordingly, there is attached an airtel to all offices and Legats furnishing instructions for appropriate handling of these investigations. *pa*

RECOMMENDATION:

It is recommended that the attached airtel to all offices and Legats be approved and transmitted.

RACIAL MATTERS INVESTIGATIONS

Glt

An analysis of the status in the field of pending active cases and delinquency in espionage, internal security, security matter, foreign intelligence and racial matters (RM) cases in classifications 65, 100, 105, and 157 was conducted for the month of March, 1968.

Pending active matters in combined classifications 65, 100, and 105 decreased by 66, as the total decreased from 23,199 to 23,133. Delinquent matters increased by 313, as the total increased from 1,063 to 1,376. The percentage of delinquent matters increased from 4.6 per cent to 5.9 per cent.

Pending active matters in the 157 classification increased by 575, as the total increased from 6,007 to 6,582. Delinquent matters increased by 5, as the total increased from 323 to 328. The field-wide delinquency percentage decreased from 5.4 per cent to 5.0 per cent.

A letter is being sent to each of the following offices commenting on delinquency as indicated by asterisk:

Office	65	100	105	Over-all Security	157 (RM)
Albany	0.0%	13.9%	7.8%	11.1%*	0.0%

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION

2/23/68

Form FD 400

The suggester recommends that a form be prepared (sample attached) for the field's use in submitting letters in lieu of annual reports. Letters in lieu of reports are submitted in those cases where an individual on the Security Index has had no subversive activity during the previous year. The suggester recommends that this form consist of one page printed on Optional Form #10 with a yellow file copy for the field office.

Letters submitted in lieu of annual reports are standard inasmuch as they show verification of residence, employment, and informants and sources contacted. The advantages of utilizing a preprinted form instead of a fully-typed letter are numerous. This form will save Agent time, clerical time, and add the element of uniformity. It will also practically eliminate correspondence to the field often times necessary when the field has left out pertinent requirements in a letter of this nature. There are approximately 10,000 individuals included in the Security Index on which either reports or letters in lieu of reports are submitted on a yearly basis. Although an exact breakdown cannot be furnished, it is estimated that letters in lieu of reports are submitted in about 10 per cent of the cases.

The Domestic Intelligence Division feels that utilization of a preprinted form in place of letters submitted in lieu of reports is highly desirable. It is a time and money-saving suggestion. It is further recommended by the Domestic Intelligence Division that only one copy of this form be sent to the Bureau, inasmuch as these letters require no action other than to review for correctness and accuracy. This would afford additional economy in paper and space. Domestic Intelligence Division recommends that the above suggestion be adopted, and the sample form be prepared and printed.

Training Division has no objection to proposed form in view of the anticipated saving in time it would achieve. Based on the yearly average of 1,000 letters, two pages in length (2,000 pages), it is estimated savings of \$1,170 per year will be achieved not including proofreading time eliminated and filing space conserved. The figure is based on the fact that the latest field-wide production average for stenographers was four pages per hour. Since the form would cut the present 2,000 pages to 1,000 pages, on the basis of four pages per hour, 250 hours would be saved. Since the lowest grade stenographer is GS-4 @ \$2.40 per hour, this would amount to \$600 a year. Added to this would be a saving in dictation time by a GS-11 Agent at \$4.64 per hour (it is felt that few GS-10 Agents would be handling Security Index subjects) of half the approximate 15 minutes it now takes to dictate a two-page letter. This would be about 7,500 minutes or 125 hours times \$4.64, or \$570. Total estimated savings are, therefore, \$1,170. From this figure the cost of the new form, about \$20, must be deducted for a net yearly saving of \$1,150. For this saving suggester could be granted an incentive award of \$60 which is in line with the accepted scale for such awards.

RECOMMENDATIONS:

(1) That the suggestion be adopted and *Mr.* be granted an incentive award of \$60 to be handled by the Commendation, Supervisory Approval, and Special Action Unit, Administrative Division, in lieu of other acknowledgment.

SECURITY INVESTIGATIONS OF INDIVIDUALS

Reurlet 4/17/68. *General*

The proposals set forth in relet regarding the submission of information concerning American citizens engaged in antiwar activities abroad have been carefully considered.

It is essential that information developed regarding anti-U. S. activities of U. S. citizens abroad be promptly furnished to the Bureau in form suitable for dissemination to the State Department and other interested agencies. You should, therefore, continue to comply with instructions contained in Bulet dated 3/28/68 captioned as above.

In this connection, it is noted that in all instances birth dates and other descriptive data must be obtained in order that a search of passport records and Bufiles be made. In many instances in the past, information transmitted to the Bureau by Legat, London, has not been sufficient to enable the Bureau to conduct necessary indices and passport checks. Information regarding individuals is frequently received from your office in the form of news clippings transmitted by routing slip without any indication regarding action taken or recommended. This is an undesirable practice which should be discontinued.

(8) *cd*

NOTE:

By airtel dated 3/28/68, all Legats were instructed that U.S. citizens who actively participate in antiwar demonstrations abroad, especially the leaders and those who take in violence, should be identified. Legats were instructed to promptly furnish under individual case caption information.

SUBJECT: MAINTENANCE OF CANCELLED SECURITY
INDEX CARDS AT QUANTICO
GENERAL

Under Vital Records Program a duplicate set of the master Security Index cards is maintained at the Quantico relocation site. Additions, cancellations and changes of the Security Index are made on a continuing basis to keep the Index in a current status. Under our current procedures, when a Security Index card is changed, the old card is then destroyed; when an individual is removed from the Security Index, the card is cancelled and is retained at the Bureau for a period of 3 years filed alphabetically by year. The cards at Quantico have been maintained on an indefinite basis. We now have 25,000 cancelled Security Index cards stored at Quantico. These cards are retained to serve as a ready list of individuals who do not meet the criteria for the Security Index at this time; however, because of previous activities, they could represent a potential danger to the internal security of the U. S. in time of an emergency.

In line with our continuing analysis to streamline our procedures, it is recommended that the cancelled Security Index cards over 5 years old maintained at Quantico be destroyed and hereafter be maintained for the period of 5 years filed alphabetically by year.

OBSERVATIONS:

The destruction of these cancelled cards will release 4 file drawers of vitally needed storage space. During this 5-year period if a subject's activities would warrant, he would be placed back on the Security Index or Reserve Index. It is believed that this period of time is sufficient to determine if an individual's activities would warrant reconsideration for inclusion on the Security Index. This will serve as a backup for a ready list of individuals who could be potentially dangerous in time of emergency.

RECOMMENDATIONS:

1) That the cancelled Security Index cards over 5 years old maintained at Quantico be destroyed and hereafter be maintained for a period of 5 years filed alphabetically by year.

2) If approved, this memorandum be forwarded to SAC, Quantico for appropriate handling.

SUBJECT: INTERVIEWS IN RACIAL AND
SECURITY MATTERS

A review of recent security and racial-type communications submitted by the field has revealed what appears to be carelessness in reporting and lack of thoroughness in the conducting of interviews during investigations. The principal weaknesses noted are failure to conduct an in depth interview; failure to clearly show the source had first-hand knowledge or the capacity to have the information; failure to indicate that the source had no additional information; and failure to include additional investigation or leads to indicate that all allegations have been or will be resolved.

RECOMMENDATION:

In view of the absolute need for thorough, penetrative interviews and the proper reporting of such, there is attached for your approval a proposed letter to all Special Agents in Charge bringing this matter to the attention of the field.

Investigations of Individuals - Clerk

Security Investigations of Individuals - Cover 1

(D) INTERVIEWS IN RACIAL AND SECURITY MATTERS -- As you are aware, virtually every report and letterhead memorandum is disseminated at the Seat of Government to agencies and officials of the Government, often at the very highest level. Any vagueness or inadequacies in interviews or the reporting of such, places the Bureau in a poor light and on occasion necessitates needless delay in dissemination while additional or clarifying information is obtained from the field.

A review of recent security and racial-type communications submitted by the field has revealed what appears to be carelessness in reporting and a lack of thoroughness in the conducting of interviews during the course of your investigations. The principal weaknesses noted are as follows:

Failure to fully cover the principal allegations involved and to conduct an in-depth interview.

Failure to clearly show that the source was or was not reporting from first-hand knowledge.

Failure to adequately describe the source's reliability and capacity to have the information furnished.

Failure to show, where pertinent, that the source did not have additional relevant information.

Failure to include additional investigation resolving the allegations or failure to set forth appropriate leads on the cover pages indicating that allegations and leads will be resolved.

It is imperative that thorough, penetrative interviews be conducted and that the reporting thereof is complete, accurate, and concise in all respects. I will not tolerate a lack of thoroughness in interviews, carelessness in reporting, or the failure to detect these errors by field supervisors. You are instructed to follow this matter closely and periodically bring it to the attention of all investigative and supervisory personnel.
